

#### SECTION 1: Identification of the substance/mixture and of the company/undertaking

#### 1.1. Product identifier

Product name	K400EP
I TOULOL HAILE	

Product number 7951

Internal identification GHS21811

#### 1.2. Relevant identified uses of the substance or mixture and uses advised against

Identified uses Lubricating grease.

#### 1.3. Details of the supplier of the safety data sheet

Supplier

Morris Lubricants Castle Foregate Shrewsbury SY1 2EL

## 08.45 - 17.00 GMT T: (+44)(0)1743 232200 F: (+44)(0)1743 353584 sds@morris-lubricants.co.uk

#### 1.4. Emergency telephone number

Emergency telephone +44 (0)1743 232200 (08.45 - 17.00 hrs GMT)

### SECTION 2: Hazards identification

#### 2.1. Classification of the substance or mixture

Classification	
Physical hazards	Not Classified
Health hazards	Not Classified
Environmental hazards	Not Classified

Classification (67/548/EEC or 1999/45/EC)	-
2.2. Label elements	
Hazard statements	NC Not Classified
Supplemental label information	EUH210 Safety data sheet available on request.

2.3. Other hazards

SECTION 3: Composition/information on ingredients

3.2. Mixtures

# K400EP

•	di-C1-14-alkyl esters, zinc salts	
CAS number: 68649-42-3	EC number: 272-028-3	REACH registration number: 01- 2119657973-23-XXXX
Classification	Classification (67/548/EEC or 1999/45/EC)	
Skin Irrit. 2 - H315 Eye Dam. 1 - H318	Xi;R41. N;R	.51/53.
Aquatic Chronic 2 - H411		
-		
	and Hazard Statements are Displayed in Se	
Composition comments	The data shown are in accordance with the	
SECTION 4: First aid measure		
4.1. Description of first aid mea		
General information	Get medical attention if any discomfort cont	inues.
Ingestion	Do not induce vomiting. Get medical attention	on if any discomfort continues.
Skin contact	Remove contaminated clothing immediately	and wash skin with soap and water.
Eye contact		nove any contact lenses and open eyelids wide tes. Get medical attention promptly if symptoms
4.2. Most important symptoms	and effects, both acute and delayed	
4.3. Indication of any immediat	te medical attention and special treatment ne	eded
Notes for the doctor	Treat symptomatically	
SECTION 5: Firefighting meas	ures	
5.1. Extinguishing media		
Suitable extinguishing media	Extinguish with foam, carbon dioxide, dry po	owder or water fog.
5.2. Special hazards arising fro	om the substance or mixture	
Specific hazards	Toxic gases or vapours. Heat from fire could	d result in drums bursting
5.3. Advice for firefighters		
Protective actions during	Control run-off water by containing and keep	ping it out of sewers and watercourses.
firefighting		
Special protective equipment for firefighters	Wear self-contained breathing apparatus.	
SECTION 6: Accidental releas	e measures	
6.1. Personal precautions, pro	tective equipment and emergency procedures	S
Personal precautions	For personal protection, see Section 8. In ca surfaces.	ase of spills, beware of slippery floors and
6.2. Environmental precaution	S	
Environmental precautions	Avoid release to the environment.	
6.3. Methods and material for	containment and cleaning up	
Methods for cleaning up	Collect spillage for reclamation or disposal i	n sealed containers via a licensed waste

## K400EP

SECTION 7: Handling and storage		
7.1. Precautions for safe ha	ndling	
Usage precautions	Always remove oil with soap and water or skin cleaning agent, never use organic solvents. Do not use oil-contaminated clothing or shoes, and do not put rags moistened with oil into pockets. Avoid spilling, skin and eye contact.	
7.2. Conditions for safe stor	age, including any incompatibilities	
Storage precautions	Store in tightly-closed, original container in a dry, cool and well-ventilated place.	
Storage class	Miscellaneous hazardous material storage.	
7.3. Specific end use(s)		
SECTION 8: Exposure Con	trols/personal protection	
8.1. Control parameters		
8.2. Exposure controls		
Protective equipment		
Eye/face protection	Eyewear complying with an approved standard should be worn if a risk assessment indicates eye contact is possible. The following protection should be worn: Chemical splash goggles or face shield.	
Hand protection	It is recommended that gloves are made of the following material: Polyvinyl chloride (PVC).	
Other skin and body protection	Use barrier creams to prevent skin contact.	
Hygiene measures	Wash promptly with soap and water if skin becomes contaminated.	
Respiratory protection	No specific recommendations. Respiratory protection must be used if the airborne contamination exceeds the recommended occupational exposure limit.	
SECTION 9: Physical and (	Chemical Properties	
9.1. Information on basic ph	nysical and chemical properties	
Appearance	Grease.	
Colour	Light brown.	
Odour	Odourless.	

 Flash point
 >200°C PMCC (Pensky-Martens closed cup).

Insoluble in water.

Relative density0.88 @ 15°C

Solubility(ies)

Auto-ignition temperature >200°C

9.2. Other information

SECTION 10: Stability and reactivity

10.1. Reactivity

# K400EP

10.2 Chamical stability	
10.2. Chemical stability Stability	Stable at normal ambient temperatures and when used as recommended.
10.3. Possibility of hazardous	
10.4. Conditions to avoid	
Conditions to avoid	Avoid heat, flames and other sources of ignition.
10.5. Incompatible materials	
Materials to avoid	Strong oxidising agents.
10.6. Hazardous decomposition	on products
Hazardous decomposition products	Oxides of carbon.
SECTION 11: Toxicological in	formation
11.1. Information on toxicolog	ical effects
General information	This product has low toxicity. Only large quantities are likely to have adverse effects on human health.
Inhalation	Unlikely to be hazardous by inhalation because of the low vapour pressure of the product at ambient temperature.
Ingestion	No harmful effects expected from quantities likely to be ingested by accident.
Skin contact	Skin irritation should not occur when used as recommended. Repeated exposure may cause skin dryness or cracking.
	skin dryness of oracking.
Eye contact	May cause temporary eye irritation.
Eye contact SECTION 12: Ecological Infor	May cause temporary eye irritation.
-	May cause temporary eye irritation.
SECTION 12: Ecological Info	May cause temporary eye irritation.  mation
SECTION 12: Ecological Info 12.1. Toxicity 12.2. Persistence and degrad	May cause temporary eye irritation.  mation
SECTION 12: Ecological Info 12.1. Toxicity 12.2. Persistence and degrad	May cause temporary eye irritation.  mation  ability The product is not readily biodegradable.
SECTION 12: Ecological Infor 12.1. Toxicity 12.2. Persistence and degrad Persistence and degradability	May cause temporary eye irritation.  mation  ability The product is not readily biodegradable.
SECTION 12: Ecological Infor 12.1. Toxicity 12.2. Persistence and degrad Persistence and degradability 12.3. Bioaccumulative potenti	May cause temporary eye irritation.
SECTION 12: Ecological Infor 12.1. Toxicity 12.2. Persistence and degrad Persistence and degradability 12.3. Bioaccumulative potential Bioaccumulative potential	May cause temporary eye irritation.
SECTION 12: Ecological Info 12.1. Toxicity 12.2. Persistence and degrad Persistence and degradability 12.3. Bioaccumulative potential Bioaccumulative potential 12.4. Mobility in soil	May cause temporary eye irritation.
SECTION 12: Ecological Infor 12.1. Toxicity 12.2. Persistence and degrad Persistence and degradability 12.3. Bioaccumulative potential Bioaccumulative potential 12.4. Mobility in soil Mobility 12.5. Results of PBT and vPv 12.6. Other adverse effects	May cause temporary eye irritation.  mation  ability The product is not readily biodegradable.  al Bioaccumulation is unlikely to be significant because of the low water-solubility of this product. The product is non-volatile. The product contains substances which are insoluble in water and which sediment in water systems. B assessment
SECTION 12: Ecological Infor 12.1. Toxicity 12.2. Persistence and degrad Persistence and degradability 12.3. Bioaccumulative potential Bioaccumulative potential 12.4. Mobility in soil Mobility 12.5. Results of PBT and vPv	May cause temporary eye irritation.  mation  ability The product is not readily biodegradable.  al Bioaccumulation is unlikely to be significant because of the low water-solubility of this product. The product is non-volatile. The product contains substances which are insoluble in water and which sediment in water systems. B assessment
SECTION 12: Ecological Infor 12.1. Toxicity 12.2. Persistence and degrad Persistence and degradability 12.3. Bioaccumulative potential Bioaccumulative potential 12.4. Mobility in soil Mobility 12.5. Results of PBT and vPv 12.6. Other adverse effects	May cause temporary eye irritation.  mation  ability The product is not readily biodegradable.  al Bioaccumulation is unlikely to be significant because of the low water-solubility of this product.  The product is non-volatile. The product contains substances which are insoluble in water and which sediment in water systems. B assessment  terations
SECTION 12: Ecological Infor         12.1. Toxicity         12.2. Persistence and degrada         Persistence and degradability         12.3. Bioaccumulative potential         Bioaccumulative potential         12.4. Mobility in soil         Mobility         12.5. Results of PBT and vPv         12.6. Other adverse effects         SECTION 13: Disposal considered	May cause temporary eye irritation.  mation  ability The product is not readily biodegradable.  al Bioaccumulation is unlikely to be significant because of the low water-solubility of this product. The product is non-volatile. The product contains substances which are insoluble in water and which sediment in water systems. B assessment  terations
SECTION 12: Ecological Information         12.1. Toxicity         12.2. Persistence and degrad         Persistence and degradability         12.3. Bioaccumulative potential         Bioaccumulative potential         12.4. Mobility in soil         Mobility         12.5. Results of PBT and vPv         12.6. Other adverse effects         SECTION 13: Disposal consider         13.1. Waste treatment method	May cause temporary eye irritation.  mation  ability The product is not readily biodegradable.  al Bioaccumulation is unlikely to be significant because of the low water-solubility of this product. The product is non-volatile. The product contains substances which are insoluble in water and which sediment in water systems. B assessment  derations  ds Waste should be treated as controlled waste. Dispose of waste to licensed waste disposal site

# K400EP

SECTION 14: Transport information	
General	The product is not covered by international regulations on the transport of dangerous goods (IMDG, IATA, ADR/RID).
14.1. UN number	
14.2. UN proper shipping name	
14.3. Transport hazard class(es)	
14.4. Packing group	
14.5. Environmental hazards	
14.6. Special precautions for user	
14.7. Transport in bulk according to Annex II of MARPOL73/78 and the IBC Code	
SECTION 15: Regulatory information	
15.1. Safety, health and environmental regulations/legislation specific for the substance or mixture	
National regulations	Health and Safety at Work etc. Act 1974 (as amended). The Chemicals (Hazard Information and Packaging for Supply) Regulations 2009 (SI 2009 No. 716).
EU legislation	Dangerous Preparations Directive 1999/45/EC. Dangerous Substances Directive 67/548/EEC.
Guidance	Workplace Exposure Limits EH40. Safety Data Sheets for Substances and Preparations.
15.2. Chemical safety assessment	

# SECTION 16: Other information

Revision comments	NOTE: Lines within the margin indicate significant changes from the previous revision.
Revision date	10/11/2015
Revision	2
Supersedes date	10/11/2015
SDS number	21811
Hazard statements in full	H315 Causes skin irritation. H318 Causes serious eye damage. H411 Toxic to aquatic life with long lasting effects.

This information relates only to the specific material designated and may not be valid for such material used in combination with any other materials or in any process. Such information is, to the best of the company's knowledge and belief, accurate and reliable as of the date indicated. However, no warranty, guarantee or representation is made to its accuracy, reliability or completeness. It is the user's responsibility to satisfy himself as to the suitability of such information for his own particular use.
